# Promoting Team Europe in the Digital Transformation of Indonesia

## Preparation of EU Tech Business Offer event in Jakarta on 05/05/2026

D4D  
HUB

EU  INTERNATIONAL PARTNERSHIPS  
DIGITAL FOR DEVELOPMENT HUB

EUD Indonesia / EU digital and Trade counsellors/Eurocham Indonesia/  
D4D HUB Members/D4D HuB Secretariat

# AGENDA

- Introduction by Sander Happaerts (Green and Digital Counsellor EUD in Indonesia)
- Presentation D4D HuB Gabriela Gonciulea (D4D Hub Asia Pacific Branch Coordinator) and D4D HUB work with private Sector( Angela Méheut-Coordinator PSAG )
- Throwback on the Team Europe event in Vietnam
- Preparation of EU Tech Business Offer event in Indonesia, incl. Rationale, priority topics, involvement of EU companies
- Tour de table : EU MS and companies' current engagement in Indonesia on digital technologies and topics of interest
- Next steps

## Definition and mandate

The [Digital for Development \(D4D\) Hub](#) is a strategic platform gathering the EU and 17 EU MS that aims to :

- Strengthen digital cooperation and coordination between the European Union and its Member States and partners in Africa, Asia-Pacific, Latin America and the Caribbean, and EU neighboring countries.
- Support **policy dialogue**
- Boost **joint investments** under the **Global Gateway**
- Facilitate **multi-stakeholder collaboration** and **knowledge sharing** between D4D Hub members and civil society, academia, and private sector actors.
- **Promote the EU Tech Business offer**

## Main topics

### 1. Strategic pillars

- Digital governance
- Artificial intelligence
- Secure, trusted, meaningful connectivity
- Earth observation and space

### 2. Transversal thematics

- Digital skills
- Digital rights and gender
- Green digital transformation
- Cybersecurity/Data security

## Governance

### Board of Directors

Decision-making body.

Composed of D4D hub members representatives

### D4D Hub Secretariat

Facilitate the implementation of activities

- 4 Thematic working groups. Define the thematic content of the workplan and implement activities
- 4 Geographic branch coordinators. Support the alignment with regional interest/context and implement activities
- 2 Advisory groups (for the private sector, for the civil society and academia). Provide advices on proposed activities and contribute when interested.
- Outreach, Visibility , Knowledge Management

GOVERNANCE

WORK STREAMS

IMPACT

# Our multi-stakeholder approach in practice

<b>European Union</b>					<b>Private sector</b>	Business associations
European Commission			EEAS (including EUD)	EIB		Multinational companies
DG INTPA	DG MENA , ENEST	DG CNECT				SMEs, Start-ups
<b>EU Member States</b>					<b>Civil society and academia</b>	NGO Universities Research Centres
MFAs (including Embassies)	Ministries of development cooperation	Other ministries like economy, digitalisation, etc.	Development and Implementing agencies	DFIs		Umbrella organisations
<b>Regional partners</b>						
Regional organisations	Economic communities	Ministries of digitalisation and ICT	National agencies			

# D4D Hub Secretariat

- Based in Brussels
- + 20 Staff mobilised by the Implementing Agencies
- [Meet the D4D Hub Secretariat](#)

- Co-funded by:

# Achievements in APAC

**Partner event at APMCDRR, Manila, 15 Oct 24**

**Strengthening ASEAN Disaster Risk Management by Harnessing Copernicus Data**

*More info on D4D Hub Website [here](#)*

**GeoConnect Asia EO forum, Singapore, 9-10 April 25**

**Promoting Copernicus and EU-Asia EO collaboration through booth exhibitions and technical forums.**

*More info on D4D Hub Website [here](#)*

**French Tech Summit, HCMC, 27 May 25**

**Engage with the private sector in tech sector and addressing research-to-business gaps in green technologies**

*More info on D4D Hub Website [here](#)*

**FRENCH TECH SUMMIT VIETNAM**

**Meet the D4D Hub and listen to our panellists**

**MAY 27TH 2025 8:30 AM - 4:30 PM**

# Achievements in APAC

## D4D Hub Digital Days, Bangkok, 2-4 June 25

Digital training of EUDs and knowledge and information exchange within the Team Europe through multi stakeholder discussions on IA, Cyber and Secure Connectivity

[More info on D4D Hub Website here](#)

## Team Europe forum, HCMC, 21 Oct 25, Promoting EU Tech Business offer and Investments in digital.

**Topics:** Digital Sovereignty, Cloud and AI - Semiconductors - 5G, 6G & Subsea cables - Digital Public Infrastructure - Space Technology and AI - SME digitalization and twin transition

[More info on D4D Hub Website here](#)

## Side event at APRSAF-31, Cebu, 17 Nov 25

Launch SCOPE digital and promote EU -Asia cooperation on Earth Observation

[More info on D4D Hub Website here](#)

Earth Observation partnerships in action:

## Europe & Southeast Asia expand geospatial services together

Side-event at the 31<sup>st</sup> Asia-Pacific Regional Space Agency Forum

Shangri La Mactan, Cebu 17.11.2025

# D4D Hub offer for private sector

## Thematic & Policy Dialogues

- MSF in LAC and D4D Working Groups

## Networking & Local Partnerships

- Regional B2B and match-making sessions

## Access to Information

- Policy Frameworks, EU Business Fora & Joint Initiatives

## Events, Workshops and Study Visits

- Promotion of the EU Tech Business Offer

## Private Sector Advisory Group (PSAG)

- 180+ members (start-ups, SMEs, (multi-)national companies, associations)
- EU and partner regions
- Digital portfolio
- [Call for expression of interest](#)

# Throwback on the Team Europe event in Vietnam

## Key achievements :

- ✓ Average 300 participants during the day
- ✓ All key strategic topics for both Vietnam and EU covered : Digital Sovereignty, Cloud and AI - Semiconductors - 5G, 6G & Subsea cables - Digital Public Infrastructure - Space Technology and AI - SME digitalization and twin transition
- ✓ More than 40 EU companies and 88 VN companies present during the event
- ✓ Strong presence of Team Europe on site (EUD, Finland, France, Germany, Sweden). Presence of Spanish, Italian, and Lithuanian cooperation. Strong support from Eurocham and French Chamber of Commerce.
- ✓ Strong media coverage before, during and after the event allowing to give strong visibility to the Team Europe (public and private) in Vietnam
- ✓ Elaboration of Policy Briefs to be shared with Vietnamese Government

## Key recommendations :

- **DFIs to be involved** in order to explain their role in implementing the Global Gateway financial instruments, EFSD+ instruments.
- **BtoB sessions to be prepared with companies** at the initial phase with a list of EU companies to target. Plan bilateral exchanges with selected companies to clarify their objectives and support connections.
- **Universities and business schools to be implicated** on specific topics where they have a specific role to play (ex. semi conductors, AI).

# Rationale for the organisation of an event in Jakarta to promote the EU Tech Business Offer

## General Context

- By targeting a \$210–360 billion digital market by 2030, Indonesia aims to transform into a leading digital economy in Southeast Asia
- [EU's Global Gateway strategy](#) : to support partner countries in their own digital transitions based on reliable, balanced, mutually beneficial collaboration.
- “[EU Tech Business Offer](#)” as a key concept in EU international digital strategy, integrating European tech, expertise, know-how and investments, providing access to services, capacity building and skills development. First successful event organized to showcase this offer in Vietnam.
- [Indonesia as a key partner for the EU in the Asia-Pacific with CEPA](#) as an opportunity to deepen Indonesia-EU collaboration (inc. on digital)
- Areas of mutual interest identified during an EU tech study visit of a delegation from Komdigi to Europe (Stockholm and Brussels) in June 25: [secure connectivity, AI and Digital Public Infrastructure](#)
- New study visit ( Indo, VN, PH) is planned with D4D Hub support in April in Europe on Connectivity topics ( 5G/submarine cables/satellite)

## Main objectives of the event

- Showcase and promote the EU Tech Business Offer
- Identify opportunities for cooperation and investment in the digital sector
- Strengthen the digital policy dialogue with Indonesian stakeholders
- Explore ways to connect with the broader engagement under current agreements and the dialogue with ASEAN.
- Define concrete follow-up actions in a Team Europe format, making use of the available instruments and tools.

### Format

One day event (100 selected participants)

Free event

3 roundtables (morning) | BtoB sessions (afternoon)

### Date

5 May 26

Presence of EU Ambassador

# Potential topics for EU Tech Business Offer (Roundtables)

Potential topics (to be discussed/amended based on Team Europe priorities) :

**RT 1/ Secured and advanced connectivity ( focus on 5G as critical infrastructure enabling economic growth, support to spectrum management)** => High interest from Indonesian delegation in Europe, DG CNECT, EUD. See interest in subsea cables and satellite connectivity ?

EU speakers : Ericsson – confirmed | ASN – contacted | Nokia – contacted | Eutelsat/OneWeb – identified, to be contacted

---

**RT 2/DPI (Payment gateway, Digital identification, Data exchange and Interoperability)** => high interest from Indonesian delegation in Europe, DG CNECT, INTPA

EU speakers : LinkIT (on data exchange and interoperability) – confirmed | Thales – contacted | others to be discussed.

---

**RT 3/ Datacenters (operationalisation of national datacenters, securing low-latency, high-reliability connections across ministries)** => high interest in datacenter operations from Indonesian delegation in Europe. See interest in topics related to energy efficiency in DC, HPC for AI ?

*Speakers to be discussed, depending on interest of Indonesian counterparts and Team Europe*

## Tour de table

- 1/ How are you assessing the EU MS and EU companies' current engagement in Indonesia on digital technologies ?
- 2/ What are the priority topics of interest in the country ?
- 3/ Where the EU could be seen as a reliable partner ?
- 4/ Interest to be involved in the event ?

# LOGISTICS

- D4D HuB with Expertise France support (implementing agency for APAC) will take in charge all related costs for the event: organization, venue, travel and related costs for speakers and moderators and EU companies interested in B to B ( maxi 20 companies), communication, translation, etc
  - Any recommendations from Team Europe members : venue, translation, local providers, etc ?

# COMMUNICATION

- D4D HUB will prepare a communication strategy, visual identity for the event and a communication kit for partners
- Communication on D4D HUB channels ( website, LinkedIn)
  - Need additional Communication relays in Indonesia

# Next steps : Indicative timeline for the preparation of the event

Study visit in Europe on connectivity (Indo, VN, PH)

JANUARY

FEBRUARY

MARCH

APRIL

MAY 5th

Task Force constituted

First concept note available

First speakers/moderators identified

First Event leaflet available

Call for application for B to B session launched

Topics & format validated

Invitation template ready

Invitations sent to speakers

Visibility and Communication plan drafted

EU enterprises for B to B session selected

Concept note finalised

Agenda finalised

Event publicised  
Visibility material available

Venue booked

Organisational arrangements made (invitations, travel, material, translation)

Roundtable prepared

BtoB sessions organised

TE Event

In BLUE : D4D APAC branch in charge

In ORANGE : Overall task force in charge /each member according to defined perimeter

# NEXT STEPS BEFORE NEXT MEETING

- D4D Hub => **Set up regular coordination meetings** (one per month) : Next meeting on **18 February at 9:00 CET**
- Team Europe members => **Nominate focal points by Country/organization** interested to contribute to the organization of the event -> Task Force (inform/contribute/validate)
- D4D Hub => **provide access to the dedicated Share Point** to nominated focal points
- D4D Hub => **Prepare and circulate a CN** for the event
- Team Europe members => **send a feedback email by 26 January** on first recommendations for potential speakers and moderators, relevant participants ( Ministries, private sector, Civil society& academia) and partners
- Team Europe members => Start communicate within your network

# KEY TAKEAWAYS

## Feedback on main topics :

- Secured and advanced connectivity : interest from FIN (Nokia to be reached out by Finland team on 5G + interest on satellites + potentially quantum, HAUS on skills development), GER (link to cybersecurity), SE (Ericsson already confirmed), FR to be further discussed
- DPI : GER (companies on payments/working with central banks + GIZ provides advisory support to Bappenas on the digital government data roadmap) + FR (focus on digital payments + mobilise Frenchtech Indonesia)
- Datacenters : FIN (hot topic - focus on HPC and AI, computing power and energy, mobilise EU companies involved via DIF and Nusantara on cloud), GER ( energy efficiency/stability), FR (via Proparco + see ATOS, present in Indonesia)
- Other topics :
  - SE => suggested placing greater emphasis on services and consumer markets (e.g. gaming).
  - NL => Geospatial (TBD if other TE members interested) and semiconductors (priority for the country but too early for EU companies. Can be tackled on talent side – students in EU universities)
  - GER => new project for cooperation between private sector and higher institution on AI innovation and capacity building, see how to include it in the programme

## Other remarks :

A need for a first leaflet to be shared by EU counsellors to their network of companies ASAP
