(**) About DMDII: Headquartered in Chicago DMDII is a federally-funded research and development organization of UI LABS, inaugurated under the Obama Administration, that works with manufacturers across America to deploy digital manufacturing and design technologies, so those factories can become more efficient and cost-competitive. The Italian Trade Agency has served as a promoter of the Institute encouraging Italian US-based manufacturers membership. Noted companies as members are: Boeing, General Electric, Procter & Gamble, Caterpillar, Rolls Royce, Lockheed Martin amongst others.
